**Who is Titus Fine Art?**

Founded in 1983 by Michael Schwartz, Titus Fine Art offers retail galleries the unique opportunity to host world-class exhibitions by some of the most important artists of all time. Located in Beverly Hills, California, Titus Fine Art is a wholesale dealer with one of the most extensive collections of historically important art for sale in the world. We also offer a select group of prominent contemporary artists who are becoming more and more important in their own right.

**What benefits does Titus offer galleries?**

For over twenty years, Titus has “partnered” with galleries to greatly increase their profits and the integrity of their business with world-class exhibitions. This includes entire shows customized for you with the artists of your choice, in various retail price ranges that fit your clients’ needs. All of our art is professionally researched and documented and comes with a valid certificate of authenticity. All art is framed to the highest archival standards, with closed corners and hand finishes. We have developed successful sales programs and proven techniques that have worked for galleries around the world.

**Why host a Titus Fine Art exhibition?**

Galleries who present a Titus Fine Art exhibition realize significant profits and gain status in their community, thereby setting themselves apart from many other galleries in the area. We fully support the sales efforts of your gallery in the following ways:

- Our experienced curators provide an in-person training program for your sales staff to quickly teach them how to present and sell every work of art.
- Excellent guest speakers provide interesting and informative talks during the opening weekend.
- Your personal curator will fully assist your staff in closing sales, making presentation to your clients, and securing press and media coverage.

We understand that you know your clients and market best. We will always build your exhibit based on your needs — your success is our success. We’re here to assist you in making it happen.
